

*Employer focused - Learner led*

## SUCCESS STORY

Numada Healthcare partnership with  
Fareport.

***“Fareport supported the learners with a variety of materials including; online learning materials and paper-based resources, mock tests plus the trainer incorporated additional visits to our office in Fareham to support the learner with their additional needs.”***

### How we partnered with Numada

Fareport have worked with Numada for many years and in the last 3 years have supported learners to achieve their Level 2 Adult Care Worker Apprenticeship. This case study relates to the latest group cohort of 4 learners based at one of their sites.

### The impact

Fareport met with the employer to plan the delivery of the apprenticeship to their specifications and required outcomes. Fareport met with the line manager to discuss this and how we can support the learner and changed the delivery method to one to one face to face meetings.

On completion of their Apprenticeship, one learner has grown in confidence not only in functional skills, but her job role too and was given a promotion and the opportunity to progress to the Level 3 Lead Adult Care Worker.

Throughout the programme, trainers and learners had regular meetings either face to face or via remote visits. Quarterly development, planning and review meetings were held between all three parties to discuss the learners progress and developmental needs, ensuring stakeholder engagement.

**Why Fareport? Because your apprentices - and your business - deserve the best support.**
